About our tutors

Tutors are Rose-Hulman Institute of Technology students who are recommended by Rose-Hulman faculty for their technical knowledge and ability to communicate clearly. The Homework Hotline has about 150 tutors on staff, and more than 30 are available to answer calls and online requests each night. All of the Hotline's tutors are certified by the National Tutoring Association.

Tutors do not give answers but guide students through homework problems to help them better understand math and science concepts. They have access to current, state-adopted math and science textbooks, computers and the Internet.

Program history

The Homework Hotline started in 1991 as a free community service for students in Vigo County. Today, the Homework Hotline extends its free math and science homework help and educational resources to Indiana students in grades 6–12 statewide.

Financial sponsors

Rose-Hulman Institute of Technology and Lilly Endowment Inc. support the Homework Hotline.

Our stats

The Homework Hotline had another outstanding year, answering **39,245 calls and conducting 1,574 online tutoring sessions** during the 2011–2012 school year. Eighty-three percent of the requests were for math assistance.
